

HouseLINK™ Text Message Interface

Receive a text message from your BinTrac® bin weighing system with information on feed level, usage and fill events as well as water, temperature and feed line control.

HouseLINK HL-10T is a hardware device designed to transmit data from the BinTrac bin weighing system to your cell phone.

Features:

- ▶ Feed bin levels and usage updated twice daily
- ▶ Water usage and temperature information
- ▶ Fill event notifications
- ▶ Output relay monitor (ie. feed line control)
- ▶ Request current weights anytime
